

# In a Broadband World...

## It's arrived!

**A world class communications platform for the Sunshine Coast**

Suncoast Broadband was set up nine months ago by SunROC-the Sunshine Coast Regional Organisation of Councils, including Maroochy, Caloundra and Noosa - along with Federal and State Governments, to call for public interest in better provision of Broadband access and services. Overwhelmingly, you asked for it. And now the Sunshine Coast will be getting it, from five selected Preferred Suppliers - Allegro, Wireless Broadband Services, SkyMesh, Cirrus and APN (Activ8/ipstar).

See [www.suncoast-broadband.net.au](http://www.suncoast-broadband.net.au) for more information and who to contact.
